Lab Manager Open Position

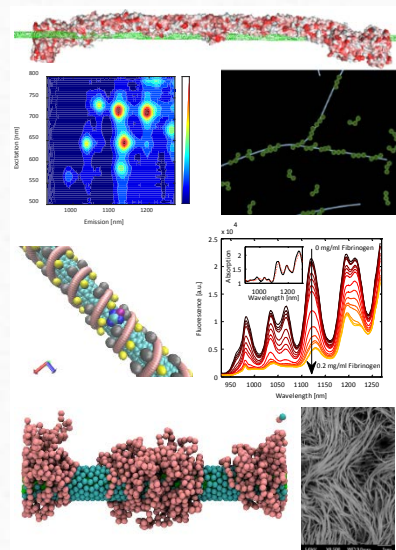

Come join a new and exciting lab at Tel-Aviv University

We are probing living systems at the nanoscale!

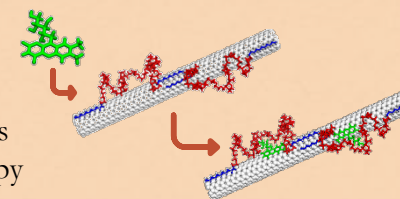

Enjoy the opportunity to help establish a new lab and a new research program, as well as:

- Lead independent research
- Supervise and mentor postdocs, graduate and undergraduate students
- Develop working protocols and experimental procedures
- Write papers, grants, and proposals
- Coordinate all aspects of running a lab including equipment maintenance, supplies and purchasing, safety, and administration
- **Full-time 100% funded position**

We are an interdisciplinary nanotechnology lab working on:

- Optical nanosensors development
- Molecular recognition with nanoparticle probes
- Biomarkers detection
- Monitoring active processes within living systems
- Near-infrared imaging and fluorescent microscopy

Requirements

- PhD in nanotechnology, biotechnology, bioengineering, chemical engineering, material science, chemistry, life sciences, or related fields
- Postdoc experience is an advantage
- Experience in fluorescent microscopy, spectroscopy, nanoparticles synthesis and characterization, proteomic techniques, and cell culturing, is an advantage

Please send your CV including a description of your past research experience, and future research interests to:

Gili Bisker bisker@tauex.tau.ac.il
